FLOOR & WALL COATINGS

DURABAK™ Coatings for:

- ❖ INDUSTRIAL/COMMERCIAL FACILITIES
- ❖ NON SLIP OR SMOOTH
- ❖ TRUCK BED LINERS
- ❖ BOAT DECKS
- ❖ SAFETY
- ❖ ETC...

US Navy
Approved

Durabak™... It lets you walk on water!

Our specially formulated polyurethane non-skid protective coating offers **excellent slip and fall protection** while it protects your boat and marine surfaces against rust & other damage. Durabak™ gives you excellent traction on wet surfaces and **resists salt water, fuel and chemical damage**. This unique formulation has resilient, specially treated rubber granules self-contained in a **totally flexible** polyurethane base resulting in the "give" & "comfort" that no other non-slip coating offers. That's why it works better than any other product on the market!

Durabak™ is a **one part formulation... no mixing, quick drying**. Just "coating it on" with a roller... it bonds to metals, wood, fiberglass, concrete... you get the picture, it has hundreds of uses!

Durabak™ floor coating and industrial coating is a **tough, one-part polyurethane** with self-contained recycled rubber granules, which give it an attractive tough-textured appearance. When exposed to atmospheric moisture, Durabak™ undergoes a chemical curing process which changes it from a liquid to a tough polyurethane membrane.

Durabak™ will **chemically bond to most clean and dry surfaces**. These include, but are not limited to, concrete, wood, fiberglass, metal, rubber and sound coated materials. It can be applied by roller, brush or spray. Durabak™ can give a relatively smooth or rough surface, depending on application technique.

KEY ADVANTAGES

- ❖ **One-Part** → **No mixing of components**
- ❖ **Totally Flexible** → **Never chips, flakes or peels**
- ❖ **Repairable** → **Bonds to itself**
- ❖ **Protection** → **Waterproof, Resistant to acid, chemicals, UV exposure, salt water**
- ❖ **Fast Drying** → **Very short intercoat time; Foot traffic in 6 to 12 hours**
- ❖ **Economical** → **Lasts for years; no need to remove old Durabak™ when recoating**

APPLICATIONS

Ramps and Steps	Ship decks
Concrete floor coating	Tugs & barges
Pedestrian walkways	Metal steps
Buildings	Boat decks & trailers
Schools/universities	Docks
Heavy equipment	Pleasure boats
Fleet trucks	Dredge support vessels
Hotels/motels	Fishing boats
Apartment buildings	Survey vessels
Factories	Ferries
Warehouse floor coating	Industrial floors
Decks/garages	Walkways
Bridges	Corrosion protection
Curb ramps (ADA)	Roofing
Garage Floors	Stadium/arenas Floors
